Quassel IRC - Bug #109

usability - double click handling for nick view

02/18/2008 12:12 PM - phon

Status:	Closed	**Start date:**

Target version:	0.2.0-alpha3		
Version:	0.13.1	**OS:**	Any

Description

it would be nice if a doubleclick on a username in the nick view would open/start (if not already existant) and choose a user query.

History

#1 - 02/20/2008 09:24 PM - phon

only half of this is resolved. the query is being started but not selected yet. perhaps it would be good if all new queries/channels were active by default - or at least the queries the user initiated.

#2 - 02/22/2008 05:21 PM - EgS

Now all newly created buffers are selected per default.
Dunno if this is suitable for every user.

Perhaps make this configurable so users have a choice to always open all new buffers, or only new queries or none?

#3 - 03/12/2008 12:52 PM - phon

when double-clicking on a user with an existing query it would be nice if this buffer would just get selected and no "Starting query with" message would appear.

#4 - 03/12/2008 01:14 PM - EgS

Jeah thought the same.
Since you implemented those handlers I'm assigning you the BR.
