Quassel IRC - Feature #889

Unknown CTCP queries and replies don't work

01/09/2010 11:53 AM - kode54

Status:	Resolved	**Start date:**	01/09/2010
Priority:	Normal	**Due date:**

OS:	Any		

Description

Currently, CTCP replies other than PING and VERSION are reported to the server status window as "Received unknown CTCP BLAH by nick!user@host". It also seems, at least from what I gather from #795, that unknown CTCP queries only send the type name of the query, but not any parameters that follow it.

It would be handy if unknown CTCP replies at least displayed as replies, not queries, and also if they would display the data included in the reply. That way, the CTCP TIME and FINGER queries built into the client's nick list context menus would actually be useful.

Associated revisions

Revision d329046faaae47c39af14d9019b542b945e628d7 - 01/30/2010 12:47 AM - seezer

Handle unknown CTCP stuff a little bit nicer

- unknown replies are now shown with its arguments
Fixes #889
- arguments to unknown CTCP queries are actually transmitted
Fixes #795
- show target's nick for queries
