Description

[21:04:55] <jussi01> Sput: is it a hard thing to assign a notification action to something? is it currently possible to get notifications for pms even when you are focused on quassel?
[21:05:15] <jussi01> (but not on the pm buffer in question)
[21:05:16] <Sput> hmm... it's currently not possible
[21:05:26] <Sput> it probably wouldn't be too hard to implement though
[21:05:50] <jussi01> Sput: I have more pm buffers than my window fits, Im often missing them because they are out of screen
[21:06:02] <jussi01> some sort of notification needs to be there.
