Quassel IRC - Bug #587

Sender auto coloring breaks all colors in chatview

03/01/2009 12:52 PM - lukrop

Target version:			
Version:	0.6.1	**OS:**	Linux

Description

I got quassel from git (http://git.quassel-irc.org/?p=quassel.git;a=commit;h=9a1714ad05614440e6dae848903fdf7c875a05e1)

If I enable sender auto coloring it works as long as the client is running. After a restart of the client ALL colors in the chatview are gone.

Build options:
cmake . -DCMAKE_INSTALL_PREFIX=/usr -DWANT_QTCLIENT=OFF -DWANT_CORE=OFF -DWANT_MONO=ON && make

I recognized that the problem only occurs if you change the (Mirc) colors and enable sender-auto-coloring. If you only enable sender-auto-coloring and don't change the colors everything works as expected.

#2 - 05/05/2010 02:05 AM - johu

- Status changed from New to Feedback

- Version changed from 0.4.0+ to 0.6-pre

Can not reproduce with current stable version 0.6.1, please give feedback.

#3 - 08/19/2010 02:11 AM - johu

- Status changed from Feedback to Assigned

- Assignee set to Sputnick

- Priority changed from Normal to Low

- Version changed from 0.6-pre to 0.6.1

I investigate issue a little bit more. It only occurres when in choosen qss stylesheet ChatLine::sender#plain[sender="x"] (x = 00-0f) is not set.
