| Target version: | | OS: | Mac OS X |
| Version: | 0.7-pre | | |
| Description | | | |
| Using OS X 10.6.5 and quassel-client 0.7.1. | | | |
| Go to Settings -> Configure Quassel... -> Chat View. Check 'Custom chat window font' and press 'Choose...' | | | |
| Clicking anywhere in the font dialog produces only a beep. Nothing in the other Quassel windows responds, either. The only thing left to do is force quit the program. | | | |

Confirmed to be fixed with newer builds (linked against newer Qt) of Quassel. (e.g. http://koudelka.dyndns.org/quassel/QuasselClient_MacOSX_Universal_0.8-rc1.dmg)
