# Quassel IRC - Bug #114

# double-click on url doesn't work with https

02/22/2008 04:42 PM - phon

Status: Closed Start date: **Priority:** Due date: High Assignee: % Done: 0% Category: **Quassel Client Estimated time:** 0.00 hour Target version: Version: 0.13.1 OS: Any

### Description

The double-click handler only recognizes <a href="http://domain.tld/">http://domain.tld/</a>

It would be nice if it would also support <a href="https://domain.tld/">https://domain.tld/</a> and perhaps also recognize http if there is something directly ahead. As an example - join #amarok.de then you get:

[13:17:48] \* Topic for #amarok.de is "http://amarok.kde.org/de :: Amarok 'Fast Forward' 1.4.8 veröffentlicht! :: Amarok 2

Tech-Preview 1 http://tiny.cc/RMxUy :: datten macht morgen beim wettshirtcontest mit!!!"

[13:17:48] \* Topic set by apachelogger\_ on Mon Feb 11 20:07:19 2008

http://amarok.kde.org/de is also not clickable here because of the prepended quotation.

### History

#### #1 - 02/22/2008 04:50 PM - EgS

This is a known issue.

As it has been stated on introduction and in the handler this is more than a dirty hack.

There are even more occasions where it won't work. The handler will die when the chatwidget and the chatlines receive their long awaited overhaul. -> won't fix
