

Quassel IRC - Feature #1203

Save IP of people who queried but shared no channels

02/24/2013 03:12 AM - gry

Status:	New	Start date:	02/24/2013
Priority:	Normal	Due date:

Target version:			
OS:	Any		

Description

Situation: Bot attacks which involve /msg spam from bots that don't share channels with you
Goal: retrieve a list of their IPs

Current solution: Manually whois each nick to save a list of IPs in the server buffer

Task: Have the IP logged in the same table as the query message and nick

Ideal solution: A script to search logs for the spammed message and get the IP it was from

It should be noted that (pretty obviously) private message line comes with a nickuser@host prefix and there would be no need for Quassel to who or whois the bot.
