<b>Priority:</b> Normal	<b>Due date:</b>

<b>Category:</b> General / Unspecified	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>OS:</b> Any	
<b>Description</b> As said in the subject, is there a feature to open an irc:// link with Quassel yet? After finished chatting on that channel Quassel can just dump the logs, or prompt the user if they want to save the server settings. That should be quite useful.
