Version:	0.9-pre		
Description			
Reconnecting to the irc network clears blowfish encryption keys. This is a major inconvenience.			

Associated revisions

Revision f8851271 - 09/24/2015 09:15 PM - Bas Pape

Store the channel keys in CoreNetwork again

The refactoring from 3146ad0 (and e0781ee) was not a true refactoring as it changed behaviour: CoreIrcChannels (as opposed to CoreNetworks) are ephemeral, which meant disconnecting or parting lost the channel key. Keys are still kept by the channel's cipher, but synced from/to its network when the constructor/destructor is called.

Fixes #1248

History

#1 - 10/09/2015 12:06 AM - Anonymous

- Status changed from New to Resolved

- % Done changed from 0 to 100

Applied in changeset [quassel|f8851271f84e262bfd38f18aa76e78d20f4f5602](#).

#2 - 06/01/2016 10:07 PM - sjefen6

- Status changed from Resolved to Feedback

- % Done changed from 100 to 50

This is resolved for channels, but not queries. Tested on Core 0.12.4, Client 0.12.3.
