

Quassel IRC - Feature #1283

Highlight ignore feature

05/13/2014 01:04 AM - Yepoleb

Status:	Resolved	Start date:	05/13/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:	0.13.0		
OS:	Any		
Description			
I noticed that highlight regexes like "(?!\identified for) Yepoleb" don't work, because they don't have to match the full message. I think this would be the easiest way to implement ignore highlights, but adding a new ignore type would work too and may be more user friendly.

History

#1 - 09/14/2018 02:50 AM - genius3000

- Related to Feature #989: Add ignore highlight option in a channel's context menu added

#2 - 09/14/2018 02:53 AM - genius3000

- Status changed from New to Resolved

- Target version set to 0.13.0

- % Done changed from 0 to 100

This can be done in 0.13 (as of this comment, -rc1 is out) with remote highlights.

There's a 'Highlight Ignore Rules' tab, which can be used just like a highlight rule, but to not highlight. This should also be possible with some fancy regex work in earlier versions, but we shouldn't have to get into that. :)
