Compiler is:

```
Apple LLVM version 6.1.0 (clang-602.0.53) (based on LLVM 3.6.0svn)
Target: x86_64-apple-darwin14.3.0
Thread model: posix
```

This happens on commit 92490c7390f21d59a0df540c4bdcbb1de69e7e8e, latest master as of Tue May 26 13:40:17 UTC 2015.

History

#1 - 06/16/2021 10:25 PM - phuzion

- Status changed from New to Closed

Both macOS 10.10 and Qt 4.8.6 are no longer supported.

I'm going to close this bug, but if you continue to see this issue, please reopen it.
