

Quassel IRC - Bug #1387

Quassel crashes when i will add a new Server

10/19/2015 12:39 AM - BlackMage

Status:	New	Start date:	10/19/2015
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Linux
Version:	0.11-pre		
Description			
if I want to add a new server crashes the application when clicking on OK			
Version is 0.13-pre(Why can not I select it?)			
Qt 4.8.6			
KDE 4.13.3			

History

#1 - 10/19/2015 12:40 AM - BlackMage

- File *Quassel crash information.txt* added

and here the crash information

#2 - 01/17/2016 05:44 PM - BlackMage

it was my fault
it was because of an outdated Theme
I have my theme updated and now it runs without problems

#3 - 01/17/2016 05:59 PM - BlackMage

Oh sorry
I was wrong
the error still happens exactly as described (even with the updated Theme)

#4 - 01/24/2016 09:53 AM - BlackMage

i have it fixed
it was because of my configuration of Intel graphics driver. sorry
