

## Quassel IRC - Bug #177

### For Spaces on OSX to recognize quasselclient info.plist has to be changed

06/04/2008 02:09 PM - TehShantar

<b>Status:</b>	Resolved	<b>Start date:</b>	
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	EgS	<b>% Done:</b>	0%
<b>Category:</b>	Quassel Client	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.2.0-rc1	<b>OS:</b>	Any
<b>Version:</b>	0.13.1		
<b>Description</b>			
if you add:			
<code>&lt;key&gt;CFBundleIdentifier&lt;/key&gt;</code>			
<code>&lt;string&gt;org.quassel-irc&lt;/string&gt;</code>			
to the info.plist spaces can save the space quasselclient is bound to. (or something similar, don't know if you wish to use another identifier.			
without the above quasselclient will always start on the active space, even if you have configured it to be on space 3 for example.			
i included my modded info.plist for you			
<b>Additional information:</b>			
every version is affected till now			

#### History

##### #1 - 06/16/2008 04:44 PM - EgS

fixed in current git

Note: only fixed in cmake build!

#### Files

Info.plist

710 Bytes
