<b>Description</b>			
In the client, the next hot chat shortcut does nothing. Worked fine about four years ago in a previous release. Linux/Debian both on client and on server.

Same problem here with version v0.14.0 (dist-da9c1c9). Even if I change the shortcut to 'Alt + A' or 'Ctrl + H' it does nothing.

Quassel Client 0.13.1 on Debian 11. Jump to next hot chat - switches to the next chat with a highlight - but in its absence, does nothing. I expect it will switch to next channel with a new unread message.

Thanks.
