OS:	Any		
Description			
Should be useful to add this.			
Allow clicking on a chat monitor line change the current open discuss window.			

History

#1 - 07/01/2008 01:14 PM - betagan

that way, URLs in chatmonitor would not stay clickable?

Dont like that.

Maybe one could switch to the occuring buffer when clicking on the sender-hostmask part, not the message itself.

#2 - 08/11/2008 02:43 PM - EgS

Fixed in current git.

As clicking on the chatline might indeed interfere with url handlers you have to doubleclick on the sender column ie: <FreeNode:#quassel:Quassel>.
