

Quassel IRC - Bug #25

Make string comparisons (esp. ownNick) case-insensitive

05/18/2007 11:47 AM - Sputnik

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Sputnick	% Done:	0%
Category:	Quassel Core	Estimated time:	0.00 hour
Target version:	0.2.0-alpha1	OS:	Any
Version:	0.13.1		
Description			
<p>Since the IRC protocol is case-insensitive, we should make sure that all comparisons are made case-insensitive. I just noticed that Freenode seems to send ownNick in lower case in some cases, which triggered the assert in Server::handleServerPrivmsg.</p> <p>Fixed there, but we should check the code for more places where this could lead to problems.</p>			

Associated revisions

Revision 0ac86f1e - 05/18/2007 11:50 AM - Manuel Nickschas

Fixed a bug where a case-sensitive comparison with ownNick prevented connection to Freenode.
See also BR #25.

History

#1 - 12/21/2007 10:28 AM - Sputnik

Has apparently been fixed at least for nicks; long-time testing has not shown any more problems with nick handling. However, the problem of case insensitivity needs to be something we always need to remember.
