

## Quassel IRC - Feature #335

### "pass param ranges to aliases"

10/05/2008 01:41 PM - jussi01

<b>Status:</b>	Resolved	<b>Start date:</b>	
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	EgS	<b>% Done:</b>	0%
<b>Category:</b>	General / Unspecified	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.3.1		
<b>OS:</b>	Any		
<b>Description</b>			
<p>&lt;jussi01&gt; EgS: ok, I have this alias: /quote REMOVE \$channelname \$1 ; /msg chanserv op \$channelname -\$currentnick; &lt;EgS&gt; ok, so? &lt;jussi01&gt; EgS: I want it that I do the /the-alias nick reason   then the person is removed and there is a reason listed there &lt;jussi01&gt; but the reason could be any number of words &lt;EgS&gt; the reason would be in the REMOVE part? &lt;jussi01&gt; EgS: hrm, Im not certain how it works perfectly, Im trying to get the same as /arn in this script: <a href="http://jussi01.com/upload/uploads/auto_bleh.pl">http://jussi01.com/upload/uploads/auto_bleh.pl</a> &lt;-&gt; lemmAway is now known as lemma &lt;EgS&gt; jussi01: the first param should be the guy to be removed and the rest should be the reason, right? &lt;jussi01&gt; EgS: yes &lt;EgS&gt; na there's currently no way to do this... :/ &lt;EgS&gt; could you file a br?</p>
