

Quassel IRC - Bug #399

Quassel settings dialog should always stick before the main window

Target version:	0.3.1	OS:	Any
Version:	0.13.1		
Description			
All quassel pop up windows stay in the foreground of the quassel main window instead of the settings dialog. This is a bit annoying as it is difficult to get it back to the foreground again.

I would like that all dialogs but the main window are modal.

#2 - 11/16/2008 02:12 AM - Sputnick

Made the settings dialog modal. This used to be non-modal because it was supposed to be only instantiated once at application startup, but this has been changed a while ago.
