

Quassel IRC - Bug #454

User notices are displayed twice in the current buffer.

12/30/2008 06:14 PM - sph

Status:	Resolved	Start date:	12/30/2008
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.3.1+		
Description			
In the 'message redirection' options I selected 'default target' and 'current buffer' for user notices.

Also, if you receive a notice from the user you have a private conversation with (and whose buffer is focused), then the 'default target' seems to be a random channel you share with that user. Well, it's not entirely random: every time it takes a channel higher in the bufferlist (that is also shared with that user).

Funny :)
