<b>Description</b>			
<p>It would be nice if quassel first tab-completes nicknames who had last written in a channel and not only in alphabetical order (like konversation does). I'm unsure if this mode has a speacial name. It would be enough to save the last x minutes ..</p> <p>e.g.</p> <p>nicks in a channel: ayaron ayrin beron Steve`</p> <p>ayrin: This is a test beron: yes Steve`: ay[TAB] completes to ayrin, not to ayaron</p>
