Target version:	
OS: Any	

Description

hi there,
it would be great if there was an option to setup a custom color for own text.
it improve readability. easy to spot where you last spoken, differanciate at a glance your text from others..
most irc client i tryed already have that feature, including xchat and konversation.

thanks for your attention

History

#1 - 05/15/2009 01:08 AM - Sputnik

- Status changed from New to Assigned
- Assignee set to Sputnik
- OS set to Any

This will be possible with the new style engine, currently WiP.

#2 - 05/11/2010 10:47 PM - Sputnik

- Status changed from Assigned to Resolved
- % Done changed from 0 to 100

This is possible with the new style engine, as predicted. Please have a look at the provided example stylesheets.
