**Description**

Would be nice to be able to see when a message was sent, if it was not sent today.

Konversation does it like this:  
[Thu Mar 5 2009] [01:11:51] |Join| ... has joined this channel ...  
[14:36] --> You have joined ...

[#259](#) implemented timestamps. hiding them for today's messages makes no sense with the columns in the chatview.
