

Quassel IRC - Feature #737

Administration of Users

07/09/2009 12:09 PM - Tyr

Status: New	Start date: 07/09/2009
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Quassel Core	Estimated time: 0.00 hour
Target version:	
OS: Any	
Description I would appreciate a feature that allows the administrator of the core component to fully configure for example a user entry in the DB, eg. statically set permitted and forbidden IRC-Servers, take influence how the users connect to IRC, all in all the administrator of the core should be able to set and lock the user's settings.
