

Quassel IRC - Bug #751

Quassel uses excessive CPU/RAM

07/26/2009 08:07 AM - jared555

Status:	New	Start date:	07/26/2009
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Linux
Version:	0.4.1		

Description

Dual core opteron 175 (2.2GHZ) with 2GB ram

```
USER      PID %CPU %MEM    VSZ   RSS TTY      STAT START   TIME COMMAND
jared555 6276 29.7  6.0 548900 123012 ?        S1    00:16   3:05 /usr/bin/quasselclient
```

These stats are after I pulled a 8 hours worth the backlogs into quassel. I am in multiple large channels on freenode including #wikipedia, #ubuntu, #php, #mysql, etc. and my sqlite file is 175MB after one month for a comparison. CPU usage has gradually decreased down to 9.2% but now MEM% is 6.2% after just sitting in channels.

I am running the 0.4.1 client from the Ubuntu repositories.

History

#1 - 07/26/2009 08:19 AM - jared555

Note: before I pulled in the logs quassel was using 3.6% RAM, so 8 hours of backlogs made a 48MB difference in usage
