

Quassel IRC - Feature #917

[PATCH] Individual dictionary/spellcheck based on Network

02/18/2010 05:42 PM - ruediger

Status:	New	Start date:	02/18/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel GUI (KDE)	Estimated time:	0.00 hour
Target version:	Some future release		
OS:	Any		
Description			
<p>Hello,</p> <p>I started writing some code to set the spellcheck dictionary based on the Network. The code is working and has a settings menu. The code of course works only on KDE (with Sonnet).</p> <p>(although I'm thinking of writing spellchecking code for OSX)</p> <p>I hope you'll find this set of patches useful. (I created them with git format-path it should be easy to apply them with git am)</p>			

History

#1 - 02/18/2010 06:39 PM - ruediger

I added a merge request on gitorious
http://gitorious.org/quassel/quassel/merge_requests/44

#2 - 05/06/2010 01:10 AM - johu

- Target version set to 0.7.0

#3 - 08/26/2010 05:30 PM - johu

- Target version changed from 0.7.0 to 0.8.0

#4 - 01/21/2012 09:59 PM - johu

- Target version changed from 0.8.0 to Some future release

#5 - 08/12/2013 06:11 PM - Andor.David

Hello

This feature would be very useful, but per chat room or private message instead of network based.
