

Quassel IRC - Bug #939

After waking up from suspend, the Connect button is grey, even when Quassel is not connected

03/16/2010 10:28 AM - verschdl

Target version:		OS:	Any
Version:	0.5.0		
Description			
<p>After waking up from "suspend mode" Quassel is disconnected from the core. To reconnect I've got to use the menu (File->Connect to tocre/Datei->Zum Core verbinden) instead of the nice Connect button Quassel provides.</p> <p>I've got the problem using quassel-0.5.0 on Ubuntu after using pm-suspend, and one of our users got the same problem using 0.5.0 on Windows XP, using the sleepmode of the operating System on her laptop.</p> <p>I checked the ticket system for similar bugs, but I couldn't think of good search terms for searching the issue, so I'm not really sure if there is already a bug open.</p> <p>Thanks, and keep up the good work.</p> <p>Regards, Verschdl</p>
