| <p>When a channel's name contains a + (for instance ##c++), you cannot join that channel by simply clicking the name. It'll underline only the ##c.</p> <p>Might happen for other chars as well, didn't test that.</p> |                |                        |            |
